

MIS Sciences Corporation provides secure and reliable colocation, and is trusted to manage essential colocation services for leading enterprise corporations and Government agencies. MIS offers flexible colocation plans that enable you to specify the equipment and infrastructure that you will supply, and what MIS Sciences can supply for you. Options are also available to have MIS manage and monitor some or all of your equipment. Customers have access to over 60 data centers throughout the USA, Canada and the world.

● **Safe, Secure and Redundant**

MIS Sciences' data centers provide peace of mind with physical security, disaster mitigation, fire detection and suppression, and redundant, infrastructure to maximize uptime.

● **Always There**

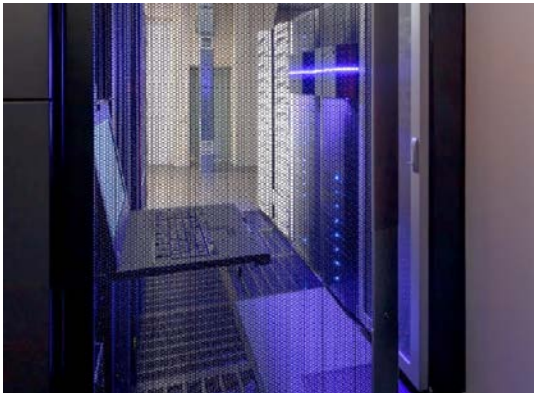

MIS Sciences provides complete services that include migration management, an assigned account manager, an online customer support portal, and 24x7 on-site support from experienced engineers.

● **Centered Around You**

MIS Sciences partners with you for your success. Our service level agreements guarantee 100% satisfaction, as well as 100% availability for power, bandwidth and network connections.

● **Customized Solutions**

MIS Sciences offers services that are flexible and easily adaptable, and will tailor hybrid solutions to fit your company's needs, location, and size.

About MIS Sciences Corporation

Since 1996, MIS Sciences Corporation has been delivering comprehensive technology, colocation, and hosting services for enterprise and government customers of all sizes, from startups and Fortune 500 companies to Government agencies. MIS Sciences provides managed services and hosting, development and application management services, disaster recovery, and electronic vaulting; in geographically dispersed data centers for redundancy options and risk mitigation.

MIS Sciences is a full service IT Schedule 70 Contractor authorized to provide services under SIN 132-51, SIN 132-52 and Cloud SIN 132-40.

Colocation

MIS Sciences Colocation Specs

Space	Each MIS Sciences data center offers a number of space options. Pick the location and space that meets your needs.	<ul style="list-style-type: none"> ▪ Private Suites ▪ Lockable Cages ▪ Lockable cabinets
Bandwidth	All MIS Sciences data centers have been designed to ensure that your data and applications can always be reached. Each facility features multiple core routers and multi-gigabit switches. We also offer 1Mbps through 10GbE connectivity to multiple network providers, so you can easily choose the amount of bandwidth.	<ul style="list-style-type: none"> ▪ Fixed rate ▪ Burstable to 10 Mbps ▪ Burstable to 100 Mbps ▪ Burstable to 1000 Mbps ▪ Customized Solutions
