

Cloud Adoption for Agency Applications

Are you ready to achieve the cost efficiencies and increased agility of the Cloud? Are you pondering the complexities that will be introduced into infrastructure management, resource management, planning, and operations?

You need to get From Here (Need)

To Here (Application Deployment)

The path to successful Cloud deployment of applications involves traversing a “mine field” of platform and infrastructure requirements and roadblocks that can stop a deployment dead in its tracks.

Deployment to the Cloud is not as simple a point>click>run. It requires infrastructure expertise and ongoing support for proper and successful Cloud application deployment.

GovPoint® PaaS Cloud Services

Your Platform to Success

Your applications require a properly configured and secure infrastructure to operate. You can focus on your business applications and leave the Cloud to us. We handle everything from the hypervisor to the infrastructure. We are your “platform to success”.

MIS Sciences Corporation’s GovPoint Platform as a Service (PaaS) offering will help speed you on your way to realizing cloud benefits without all the associated headaches.

MIS Sciences GovPoint® Cloud Services is a FedRAMP compliant government-only cloud environment, with both Dedicated Cloud and Virtual Private Cloud models available for our customers to maintain security and data protection based on FedRAMP controls.

In addition to the traditional benefits of Cloud use, GovPoint also provides much needed technical support capabilities to promote Cloud adoption. Management and administration of the infrastructure is a major component of the GovPoint platform layer.

By integrating MIS Sciences' accumulated ***experience, training*** and ***upper tier support resource access*** into an already **robust infrastructure and platform environment**, GovPoint Cloud Services is a customer-centric, flexible product that gives organizations the ability to move forward with their initiatives on a faster track.

Maximize your internal resources by leveraging MIS resources to manage infrastructures and platforms, with an expertise honed in 20 years as a hosting provider and technology services partner to our government customers.

The GovPoint Difference: Reduced Infrastructure overhead PLUS reduced operational Impact.

GovPoint is your infrastructure and platform provider. When deploying applications and using GovPoint services, we are responsible for everything in the GovPoint column and

GovPoint® PaaS Cloud Services Your Platform to Success

you only have to manage your applications (Customer with GovPoint column). Without GovPoint, you are responsible for everything!

Responsibility Matrix

	Provided by GovPoint	Customer With Gov Point	Customer Without GovPoint
Size, Configure, and maintain Cloud Services Instances	X		X
Size, Configure, and maintain Cloud Services Storage	X		X
Provision and Maintain Networking	X		X
Provision and Maintain Firewall	X		X
Provision and Maintain Load Balancer	X		X
Manage and Monitor Cloud Services Base infrastructure	X		X
Provision Edge Gateway Appliance	X		X
Provision Public IPs	X		X
Provision VPN	X		X
Assign resources to resource pool	X		X
Data Protection of IaaS infrastructure	X		X
Create and assign administrative users and privileges and 2FA	X		X
FedRAMP compliance up through hypervisor level.	X		X
FedRAMP compliance at the guest OS	X		X
Manage Customer's Virtual Data Center	X		X
Configure OS hardening.	X		X
Apply OS maintenance releases that are approved by the customer	X		X
Identify security patches/hot-fixes for supported OS technologies.	X		X
Identify maintenance releases for supported OS technologies.	X		X
Create and configuration changes of Cloud Instances	X		X
Manage Firewall, VPN and Load Balancer rules	X		X
Monitor customer environment (VMs, Network, etc.)	X		X
Provide OS licenses	X		X
Coordinate any third-party circuit orders and installation.	X		X
Configure and manage Connectors as required.	X		X
Maintain Change Management records for infrastructure components	X		X
Install, support, maintain customer applications		X	X
Maintain FedRAMP compliance for the customer applications		X	X
Customer Data Protection – i.e. application specific backup		X	X
Monitor customer applications		X	X

Do not let any roadblocks slow down your path to Cloud adoption. MIS Sciences GovPoint PaaS Cloud Services is here to assist. Dedicate your resources to your applications and customer satisfaction, not to infrastructure management.

Utilize the MIS Sciences cloud environment to benefit from the security controls of a JAB P-ATO, without exhausting resources to re-architect your existing infrastructure.

● **Secure and Compliant Environment**

Meets a broad range of regulations, standards, and best practices including FedRAMP, International Traffic Arms Regulations (ITAR), FIPS 140-2, ISO 27001:2005, and AT 101 SOC Type 2.

● **Allow the Cloud**

Increase efficiency, agility and innovation with cloud utilization. Benefit from the expertise and experience of a trusted hosting and cloud services provider in MIS Sciences Corporation.

● **Flexible Managed Services**

One size rarely fits all, and MIS will work with you to provide optimized, elastic and cost efficient environments to run your applications.

● **Incident and Issue Resolution**

Rely on MIS Sciences to partner with you proactively when any incident or issue arises.

About MIS Sciences Corporation

Since 1996, MIS Sciences Corporation, a Veteran Owned Small Business, has been delivering comprehensive technology, colocation, Cloud, and hosting services for enterprise and government customers of all sizes, from startups and Fortune 500 companies and to Government agencies. MIS Sciences provides managed services and hosting, development and application management services, disaster recovery, and electronic vaulting.

MIS Sciences is a full service IT Schedule 70 Contractor authorized to provide services under SIN 132-51, SIN 132-52 and Cloud SIN 132-40.
