

An Information Services Technology Company

Capabilities Statement

MIS Sciences Corporation (MIS) is a FedRAMP CSP (IaaS/PaaS/SaaS) with a Moderate JAB P-ATO. MIS is the FedRAMP CSP; MIS owns and manages the infrastructure and all related services and delivers FedRAMP Cloud Services for up to 40% less than AWS and Azure.

As an SBA-certified Woman Owned Small Business, MIS is committed to customer service and creating innovative and flexible solutions for State and Federal agencies.

What sets MIS apart from the competition?

- 25+ Years of Experience working with Government Agencies
- FedRAMP Dedicated Cloud and On-Demand Cloud Services
- Up to 40% less than AWS and Azure
- Our People – Our Service
- Performance-Based Processes and Integrated Solutions Teams
- Strategic Mix of Technology and Business Solutions

Core Capabilities

- FedRAMP Cloud Services (IaaS, PaaS, DRaaS)
- Non-FedRAMP Cloud Services (IaaS, PaaS, DRaaS)
- Cloud (object) Storage
- Virtual Desktop Infrastructure
- DR and Business Continuity Services
- Managed, Dedicated, and Cloud Hosting Services
- Email and SMS Messaging Services
- Consulting Services
- Private Cloud Services

JAB-authorized IaaS/PaaS FedRAMP Cloud Services are hosted in MIS datacenters with the capabilities of providing reserved and on-demand standard instances to meet any client requirement, all at up to 40% less than AWS and Azure.

Private clouds and dedicated environments for your security needs, either FedRAMP or general-purpose.

Bring your own hardware. We can support special hardware or appliances within our FedRAMP or non-FedRAMP environment.

Our DR and Business Continuity Services utilize redundant data centers to provide cold, warm, and hot backup and BC capabilities utilizing regular backup or real-time replication. GEO load balancing allows for 100% uptime and load distribution.

Our Managed and Dedicated Services provide full service and fully redundant managed, dedicated, and Cloud hosting environments to meet the most complex and demanding needs.

Our Messaging and Notification Services (eAlert) provide high-speed message delivery using email, SMS, and voice to targeted groups or entire cities. Designed for emergency and notification services, 2-way SMS/MMS messaging is available for public safety – “see something, say something” allowing direct SMS/MMS 2-way communication to 911 dispatch centers.

Our Consulting and Technology Services focus on integrated solutions designed to enhance the performance of your business. By incorporating industry best practices into your business processes and management strategies, we can help you stay ahead of the competition and better serve your customers. Our services include;

- Business Strategy & Planning Support
- DR & BC analysis and implementation
- Migration Analysis and Support
- Change Management & Facilitation Support
- Security Assessment
- Training
